

Building Protection for Greener and Cleaner Moves

No more Masonite®. GDoe™ Floor and Wall boards provide superior protection for building finishes during moves, installs, and upfits.

Offices and other professional facilities require a delicate touch for moves, furniture installations, remodels and more. Since tenants are often still using the building, it's important to maintain a safe and professional image while the building is undergoing active construction or assets are being redistributed.

GreenDominion has a series of green products to help building operations and facility managers care for their investments while caring for the environment. GreenDominion's GDoe protects walls, floors, doors, elevators, corners and more.

GDoe may even help achieve or maintain LEED credits. You can keep your properties competitive and desirable by specifying GDoe products in bids, RFPs, and as part of move-in/out procedures. Some facility/building managers even stock GDoe for their portfolio of properties and rent it out to contractors and movers.

GDoe™ Not just better products — a better way of doing things

- Reduce costs through fewer claims, less cleanup, less labor, and zero disposal fees
- Improve performance and safety while maintaining more professional-looking job sites
- Save money the longer you use GDoe. Not just ROI, but measurable soft cost savings
- Long-term reusability
- Easy installation/safe for all surfaces
- Gain or maintain LEED credits for MR and IEQ

Never buy Masonite again!

Be green. GDoe products are 100% recyclable and made from 100% recycled content.

GreenDominion is a proud IFMA member. See our full product line on the back and contact us today at 919-710-5220 or info@greendominion.com.

Healthcare Facilities

*Research/Scientific
Facilities*

Hospitality Facilities

Historic Properties

Government Facilities

*Educational/Institutional
Facilities*

Residential Properties

Multi-Family Properties

“Safety, protection and cleanliness are my main concerns when service providers are working in our 2.7M sq. ft. portfolio of properties. GDoe continues to perform at a superior level on all three. Our owners are very impressed with our decision to specify GDoe usage to all contractors and to have some on hand for our own staff.”

Bob, Sr. Property Manager
