

Moving Toward Sustainability™

Clean and Green Residential Care for Moving, Building and Installations

No more Masonite®. Build your residential business through green practices.

Residences require surface protection for hardwood, tile and stone flooring, and homeowners want to have a positive impact on the environment, which means cutting down on waste. Forget the mess of Masonite, cardboard and moving blankets – you need surface protection that protects the environment and enhances your reputation.

Whether you're a custom home builder protecting new finishes during active construction or a punch list, a contractor working on an interior fit-up, or a mover or delivery/installation contractor, you understand the costs of damaging floors. GreenDominion's 32-inch wide GDoe 100% recycled rubber/plastic blended floor boards cover a large area, abate the impact of drops, and safely support hand trucks and bubble wheel dollies. Our GDoe vertical panels protect walls, doors, glass and other surfaces. All of our products create no dust, debris, or airborne pollutants.

Unlike Masonite, Neoprene runners, or corrugated products, GDoe looks great and doesn't wear out. Simply seal GDoe boards together with duct tape. When you're done, store them in your truck's belly box or operations warehouse. The longer you use GDoe, the more consumables costs you avoid. You can even pressure wash GDoe clean!

GDoe™ Not just better products — a better way of doing things

- *Maintain professional-looking job sites while improving protection, performance and safety*
- *Protect expensive finishes and reduce costs through fewer claims, less cleanup, less labor and zero disposal fees*
- *Build your reputation as a caring, environmentally-friendly business*
- *Safe, easy installation for all surfaces.*
- *Save money the longer you use GDoe. Not just ROI, but measurable soft cost savings*

Never buy Masonite again!

Be green. GDoe products are 100% recyclable and made from 100% recycled content.
