## Green Relocations with Environmentally Friendly Building Protection

### No more Masonite®. Manage moves and relocations in a green, professional manner.

As relocation managers and move managers, you've got a lot to balance without having to worry about protecting facilities and the client's property. Your team is the visible face of the move, so it's important to make it professional.

Say goodbye to shoddy Masonite and beat up cardboard. GDoe™ floor and surface protection is safe, environmentally-friendly, looks terrific and is completely reusable, so you can maintain a professional image while the move is underway.

GDoe protects floors, walls, corners, doors, elevators, *and* the environment. Your movers or furniture installers can roll GDoe in on its custom A-Frame cart and safely secure it into place with our special tapes. Once the job is completed, GDoe can be easily removed without leaving debris, dust, tape residue, or waste.

Differentiate your firm by specifying greener building protection methods in your RFPs. Over the life of GDoe products, service providers gain significant cost savings in labor, materials, and zero cleanup/waste fees. This will **save your clients money!**

### **not just better products — it's a better way of doing things**

- *Maintain professional-looking job sites while improving performance and safety*
- *Differentiate your business and win new accounts through environmental stewardship*
- *Easy installation/safe for all surfaces*
- *Reduce costs through fewer claims, less cleanup, less labor, and zero disposal fees*
- *Gain or maintain LEED credits for MR and IEQ*
- *Save money the longer you use GDoe. Not just ROI, but measurable soft cost savings*

### **Never buy Masonite again!**

Be green. GDoe products are 100% recyclable and made from 100% recycled content.

*May Qualify for LEED MR & IEQ Credits.*
