

Cleaner, Greener Building Protection for New Construction and Upfits

No more Masonite®. GDoe™ Floor Boards and Wall Panels provide superior building finish protection during all construction projects.

General contractors, builders and construction managers face a difficult task protecting building finishes during new construction, remodels, and upfits. Carpet and floors get dirty or damaged. Doors and walls suffer dings and scratches. And, since tenants may still be using the building, it's important to maintain a safe site and a professional image during active construction.

GreenDominion's green products help minimize the dirt, dust and potential damage of construction while still caring for the environment. GreenDominion's GDoe protects walls, floors, doors, elevators, corners and more. GDoe may even help achieve or maintain LEED credits.

You can win new bids by choosing GreenDominion's cost-competitive, earth-friendly building protection. Set your business apart with this professional product line, and avoid new costs—like Masonite—each time you use it.

GDoe™ Not just better products —
a better way of doing things

- *Reduce costs through fewer claims, less cleanup, less labor, and zero disposal fees*
- *Improve performance and safety while maintaining more professional-looking job sites*
- *Save money the longer you use GDoe. Not just ROI, but measurable soft cost savings*
- *Long-term reusability*
- *Easy installation/safe for all surfaces*
- *Gain or maintain LEED credits for MR and IEQ*

Never buy Masonite again!

Be green. GDoe products are 100% recyclable and made from 100% recycled content.

May Qualify for LEED MR & IEQ Credits.

GreenDominion is a proud member of IFMA, BOMA, ASHE, and USGBC. See our full product line on the back and contact us today at 919-710-5220 or info@greendominion.com.

Residential Properties
Multi-Family Properties

“Very impressed with the durability, safety and professional appearance of the GDoe during our 8 month project. It handled all of our contractor traffic perfectly. After we removed it, we power washed and stored it for use during our next project.”

*Jim, Superintendant
 Major “Build to Suit” GC*
